## **Harlow & Son, Kempton, Indiana**

Sale to be held at the farm 1 mile North and 1½ mile East of Kempton; 8 miles West and 1 mile North of Tipton, Indiana

### **Tuesday, September 19, 1944**

Sale will start promptly at 12:30 P. M.

Auctioneers — Earl Gartin and Ralph Drake

This sale is being held to close the Estate of the late Jesse Harlow, senior partner in the firm of Harlow & Son. Mrs. Jesse Harlow, Executrix, Kempton, Indiana.

HAL LONGLEY, Sale Manager, 37 Island Ave., Aurora, Illinois

Shorthorn cattle will convert grain and farm roughage into meat and milk more rapidly and more economically than any other breed. Why not start a good herd on your farm? This dispersion sale provides an excellent opportunity.

# General Information

**PLEASE NOTE** — The Harlow & Son herd is Federally Accredited for Tuberculosis and State Accredited for Bangs Disease. These cattle can be delivered anywhere.

**TIME** — This dispersion sale will be held on Tuesday, September 19, 1944 starting at 12:30 P. M.

**LOCATION** — The sale will be held under cover, rain or shine, at the Harlow & Son farm. This farm is located 1 mile North and 1½ mile East of Kempton; 8 miles West and 1 mile North of Tipton, Indiana.

**MAIL — TELEGRAMS — TELEPHONE** — Letters, wires or calls may be sent to Hal Longley, Sale Manager and to fieldmen or auctioneers. Such messages should be addressed in care of Mrs. Jesse Harlow, Kempton, Indiana.

**HEALTH** — The owners of this herd have used every possible precaution in guarding the health of every animal. The herd is Federally Accredited for Tuberculosis and State Accredited for Bangs. As a further precaution, all animals in the herd were tested again within thirty days of the date of the sale. Furthermore, the large number of thrifty calves and the cows heavy in calf are a clear indication that the herd is in the very best condition of health and usefulness. Health certificates will be furnished to permit shipment anywhere.

**GUARANTEE** — Every animal in the herd is healthy, the pedigrees are correct, and those females that do not have calves at foot show every evidence of being well forward in calf. The owners are known to have maintained a breeding herd of utmost reliability. As this is a dispersion sale, no further guarantee will be given.

**TERMS** — Cash.

**PEDIGREES** — A transferred certificate of registry will be furnished with each lot sold and a properly executed application for registry will be given for every calf at foot beside its dam and for every unborn calf.

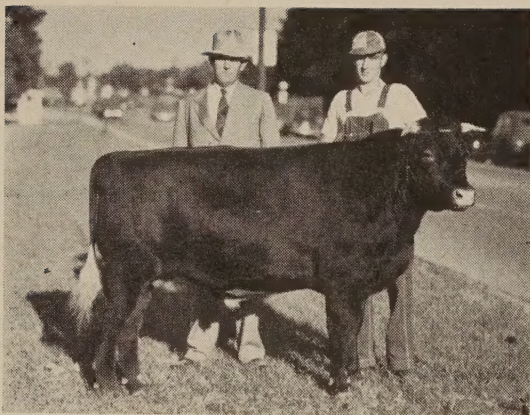

**MAIL BIDS** — Those wishing to buy at this sale but who find it impossible to attend may send bids to Hal Longley, c/o The Shorthorn World, Aurora, Illinois; Lloyd Crouch, c/o Indiana Farmers Guide, Huntington, Indiana or to either of the auctioneers.

**AUCTIONEERS** — Earl Gartin and Ralph Drake.

The above guarantee and terms constitute a contract between Mrs. Jesse Harlow, Executrix for the Estate of Jesse Harlow, and the buyer of each lot. Neither the Sale Manager nor the clerk of the sale assumes any liability, legal or otherwise.

We will not be responsible for accidents that may occur, but will make every effort to provide for the comfort and safety of our guests.

The late Jesse Harlow and Wayne Hinkle of Tipton County shown with the steer "Jerry" that won grand championship over all breeds at the Indiana 4-H Club Show in 1943. This steer was bred by Harlow & Son and made a gain of 2.98 lbs. per day, the greatest gain of any steer in the show. He was sold at \$1.30 per pound and weighed 1021 pounds, bringing a total of \$1327.20.

Hugh Harlow, junior member of the firm of Harlow & Son, shown at the halter of the steer with which he won grand championship over all breeds at the Fat Steer Show in Indianapolis in 1940. This steer was sired by Calrossie Lavender and is a half brother to the present senior herd bull, Calrossie Standard.

*This dispersion will be held on the day following the show and sale to be held at Huntington, Indiana under the auspices of the Northern Indiana Shorthorn Breeders' Association. The two sales are only 75 miles apart and auto transportation will be provided from Huntington to our farm.*

*The Harlow & Son herd was established in 1887 by John R. Harlow on a foundation purchased in Canada. Shorthorn cattle have been on this farm continuously ever since.*

## Announcement . . . . .

Due to the untimely death of Jesse Harlow, senior partner in the herd of Harlow & Son, the necessity arises for the dispersion of this herd. The herd has been maintained continuously on this same farm for 57 years and the firm of Harlow & Son is known widely for honesty, integrity and the usefulness of the cattle that have been produced. The herd today gives every indication of having been maintained under most careful management and under conditions that inspire confidence in the health and breeding ability of each animal. All of the younger cattle have been developed properly and the many calves that sell with their dams are thrifty and of good type. The older females, all liberal milkers and of most approved Scotch Shorthorn type, are in ideal pasture flesh. The herd is Federally Accredited for Tuberculosis and State Accredited for Bangs disease. The owners are desirous that all prospective buyers shall know that two cows, two heifers and the junior herd bull have been withheld from this auction and will form the foundation for a new herd to be maintained by Hugh Harlow, junior member of the firm of Harlow & Son, on this same farm. All other animals in the herd, including the senior herd bull, will be sold to the highest bidders. Cattle will be offered that have never been priced before and that would not be available to buyers under any other conditions.

## **A Few Important Facts . . . .**

This herd was established in 1887 on a strong Scotch foundation purchased in Canada. The herd has been maintained profitably on this same farm ever since.

This herd is Federally Accredited for Tuberculosis and State Accredited for Bangs Disease. There is every evidence of good health and prolificacy.

Buyers should note that every animal in this herd, with the exception of the junior herd bull Klaymor Factor, was bred by Harlow & Son. Note also that many of the pedigrees show seven and eight generations of Harlow breeding.

Many prize-winning animals have been developed in this herd. Two steers bred in the herd won grand championships over all breeds at Indianapolis in statewide competition.

Great herd bulls have been used. Note that most of the cattle in the herd at present are sons and daughters of Calrossie Lavender, bred by E. E. Beals, Cicero, Ind. and sired by the noted Calrossie Ladas 2d.

Note that all of the females are in calf or have calves at foot by Klaymor Factor. This bull, a son of the noted Imp. Collynie Royal Barrage, was purchased by Kahnyon Creek Farm, Noblesville, Indiana from the Canadian herd of W. J. Russell. He was secured by Harlow & Son when the Kahnyon Creek Herd was dispersed.

Harlow & Son have retained as permanent members of their breeding herd only those animals that combine scale with compactness, and only those that were prolific producers, liberal milkers and easy fleshers.

The members of this herd, to be sold on September 19th, will improve any herds into which they may go.

*Right — Imp. Collynie Royal Barrage, one of the most famous sires ever in service in North America. All of the mature females in this sale either have calves at foot or are heavy in calf to the service of his good son Klaymor Factor.*

*Left — Klaymor Factor, our junior herd bull, a son of Imp. Collynie Royal Barrage. His first calves have arrived and they are excellent.*

Prairie Grove Suzanne—This heifer is a very good type but only in fair flesh. She is out of the great cow Lady Victoria 9th that was also the dam of Calrossie Standard, our herd bull.

Scotch Shorthorns, with their inherent ability to attain greatest weights under feeding conditions of greatest economy, are the ideal cattle for Indiana farms. Why not start a herd on your farm? Cattle are being sold in this sale that would not be available in any auction other than a dispersion.
